

CALL FOR PROPOSALS

Hungarian Software Testing Forum (HUSTEF) 2014

Practical Software Testing

29 - 30 October, 2014, Budapest, Hungary

Dear Colleagues,

I am pleased to inform you that the Hungarian Testing Board (HTB) is organizing its [fourth annual international conference](#) in Budapest, in association with its media partner, the business-IT publication Bitport. This year HUSTEF is coordinating with an exceptional occurrence. At the same time, and following the conference, the General Assembly of International Software Testing and Qualifications Board (ISTQB), the world organization of software testers, will be held in Budapest.

Because of the General Assembly, a large number of prominent international software testers and ISTQB leaders will be in Hungary for the very first time. Several members of the ISTQB General Assembly will give talks and present workshops at HUSTEF.

Objective

This year the two day conference will consist of presentations from members of the software testing community, keynotes and workshops from invited speakers, and sponsors' presentations.

Important deadlines

- Submission of titles, authors and abstracts: May 18, 2014
- Notification of acceptance: June 15, 2014
- Submission of final presentations: September 16, 2014

Topics of interest include (but are not limited to)

- Business value experienced in testing like usability testing, mobile testing, cloud testing, big data, security testing, model based testing
- Experiences of using software test methods in agile development
- Testing frameworks, methodologies and tools
- Testing in different lifecycle models
- Improving testing processes in industrial organizations
- Managing test processes
- Challenges or benefits of implementing/following the ISO/IEC/IEEE 29119 standard
- Testing and requirements
- Benefits and pitfalls of test automation

- Benefits of static testing
- Testing and software quality in general
- Test design techniques
- Outsourcing of test activities
- Improving the efficiency and effectiveness of software testing
- Recent research achievements in software testing
- The costs and benefits of testing
- Prevention and early detection of software defects

Submission details

We are soliciting for proposals for 20 minute conference presentations by test practitioners, including questions. Submissions should seek for extracting a message for a broader user community and should not focus on tooling details. Tools can be promoted in the vendor track organized for event sponsors. If you would like to sponsor the conference, please contact Ms. Agnes Hejjas at ahejjas@bitport.hu!

A proposal for a conference presentation must follow this template:

- <http://hustef.hu/files/TemplatePresentationProposalHUSTEF2014.doc>

The independent program committee, composed mostly from industry stakeholders, will evaluate all proposals. Please submit your proposals in PDF format via:

- <https://www.easychair.org/conferences/?conf=hustef2014>

The program, including the presentation slides of accepted presentations will be made available electronically to participants and on the conference web site:

- <http://hustef.hu>

Yours truly,

Tibor Csöndes, HUSTEF Program Chair
